

The Tech

VOL. XXIV. No. 25.

BOSTON, MASS., WEDNESDAY, NOVEMBER 23, 1904.

PRICE THREE CENTS.

POLICE BOARD HEARING.

Completion of Evidence Against Police.

An attempt was made at Monday's hearing to finish the testimony which Tech was furnishing to the Police Board against the police. As there was a large mass of evidence to be heard at this session, the witnesses were examined only on certain phases of the case. In addition, Counsel Hill made an offer of the evidence of thirty student witnesses, submitting in written form some of the testimony they would give if examined.

A very important piece of evidence offered by Technology was a table of eighty-seven persons who received injury at the hands of the police. Of these eighty-seven, eighty-three were Tech students, and four were spectators. Thirty-seven of the Tech men injured were Freshmen, and forty-six were upper-class men. Of the thirteen men who were clubbed at the top of the steps, only two had been before the Board to tell their experiences. Chairman Emmons expressed a desire to have all of the remaining eleven brought before him, promising not to press too closely questions as to whether they fought back. He also called attention to the failure to produce any of the women who were clubbed. Counsel Hill said that he had been unable to persuade any women witnesses to testify.

N. Fallon, '06, a marshal, testified to having seen an officer of rank appearing to give orders to the police, and to encourage his men to "get at them." H. Shaw, '06, said that he was one of the first to go up the steps, and that most of those who went up were Sophomores. C. B. Morey, '06, C. W. Whitmore, '08, S. C. Coey, '06, and O. H. Starkweather, '07, added considerable to the already great mass of evidence. Chairman Emmons suggested that the police evidence will not take very long, and it is known to be the Board's desire to finish up the taking of testimony Wednesday. At Tuesday's hearing, interest centered in the other eleven students who were clubbed on Rogers steps. Judge Emmons clearly emphasized

his desire to ascertain fully just who were the aggressors on the steps. The evidence of the students examined showed that the men on the steps did not use their torches as clubs.

After a private consultation between the Board and Counsel Hill and Bell, Judge Emmons said that to save time, all he would care for would be the name of each additional witness, and his position on the steps when struck. The Board then examined one of the torches.

Capt. G. A. Hall, of Station 16, was next called to the stand as the first witness for the defence. He said that he was asked by Mr. Rand to keep everybody away the building on the night of the parade. He stated further how the policemen were placed.

Intercourse Football.

An interesting game of football was played yesterday afternoon at the Athletic Field in Brookline between teams representing Courses IV. and XIII. The score was 0 to 0, but the Course XIII. team played the better game and appeared to have practiced before.

Course IV. kicked off, and during the entire half the ball remained near the centre of the field, neither goal being threatened at any time. During the second half, Course IV. played a much better game and got as far as Course XIII's 15-yard line, where they were held for downs. The game ended with the ball on the Course XIII's 40-yard line in the possession of Course IV.

1907 Class Meeting.

A meeting of the Class of 1907 was held in Huntington Hall, Tuesday, at 1 p.m. The Class canes and pipes were selected.

All Sophomores desiring pipes and canes should give their names in at the Cage, to C. R. Lamont for pipes, and to C. S. Dean for canes. The names must be in positively this week.

M. E. SOCIETY.

Meeting at the Tech Union.

At the regular meeting of the Mining Engineering Society held at the Union on Monday evening the following men were elected to membership: A. H. Donnewald, C. R. Lamont, H. J. Morton, W. S. Mann, B. B. Holmes. The next meeting of the Society will be held at the Union next Monday evening. Mr. T. W. Sprague will speak on "The Use of the Stadia in Mining."

Dr. T. A. Jaggard who was to speak before the Society on "Geology and Mining" was unable to be present to deliver his address. Professor Richards, however, volunteered to fill the vacancy, and took for his topic "Mexico." Professor Richards described the trip in 1901 made by the American Institute of Mining Engineers through most of the interesting spots of Old Mexico. The talk dealt with the places and people of the country, was well illustrated by lantern slides, and was presented in a very entertaining manner. Professor Richards closed his lecture with a number of scenes from Yellowstone Park.

The Society of Arts.

The 601st regular meeting of the Society will be held at the Natural History Building, corner Boylston and Berkeley Streets, Wednesday evening, Nov. 23, 1904, at 8 p.m.

Mr. Desmond FitzGerald, C.E., Special Sanitary Commissioner to the Philippine Islands, will address the Society on "Manila and the Philippines as They Are To-day."

The lecture will be illustrated with lantern slides. Members are requested to invite friends interested in the subject. Attention is called to the fact that this meeting is to be held on Wednesday evening, not Thursday, as usual.

Senior Portfolio Committee.

The following nominations have been made for the Senior Portfolio Committee: L. T. Bushnell, F. P. Poole, W. G. Ball, R. W. Senger, S. T. Strickland, G. B. Jones, C. D. Kialn, E. B. Hill, W. Tufts, N. A. Richards. Ballots will be sent out during this week.

C. E. SOCIETY MEETING.

Interesting Talk on the Proposed Charles River Dam.

A well attended meeting of the Civil Engineering Society was held Monday, November 21, at 4.15 p.m., in Room 11, Eng. B. The following men were elected to membership in the Society: R. C. Allen, E. O. Christiansen, S. Black, G. A. Dubois, H. S. Holt, E. K. Lawrence, E. F. Rockwood, H. P. Shaw, L. T. Walker, J. L. Walsh, A. M. Williams.

Mr. Windsor, in his talk on the proposed Charles River Dam, informed the Society of the many marked changes and improvements which the Charles River is to undergo within the next few years. The proposed dam is intended to keep the river at a constant level, unaffected by the changes in the tide. It is hoped that the sanitary conditions along the river banks will be so greatly improved as to make the parkways on both sides available to public enjoyment. Work has already been begun on the construction of a parkway along the south bank of the river next to Beacon Street by filling in the river for some distance from the present shore. The proposed dam will be situated where the first bridge below the new one now is, and is to combine the dam and the bridge in the same structure. Locks will be provided for the passage of very large vessels, and, on the whole, conditions for navigation will be greatly improved.

The Society will hold its next Smoker at the Union, December 14, at 7.45 p.m. Professor Sedgwick will address the Society on "The Chicago Drainage Canal."

The Banjo Club.

There will be rehearsals of the Banjo Club Wednesday and Friday of this week, instead of Thursday, at the usual place and time.

There will also be a special rehearsal at 171 Tremont Street, Room 46, Saturday, November 26, at 4 o'clock. The rehearsals for the next two weeks will be very important, and every one should come if possible.

O. G. FALES, '07,
Leader.

The Tech

Published every Monday, Wednesday and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Application pending for entry in the Boston Post-office as second-class mail matter.

WILLIAM A. NICHOLS, PRINTER, 208 SUMNER ST., REAR

Important Notice.

Mr. Taintor, one of the counsel for Technology, asks that any student who can aid him to secure the names of any women who were struck during the clubbing affair communicate with him immediately, either in person or by telephone, 6054 Main, or 156 Cambridge. Mr. Taintor wants positive information. Any thing else is unimportant and can have no definite bearing or importance for him. Any statement that a woman was struck must be accompanied by that woman's name.

Railroads.

The lesson for Friday, November 25, and Saturday, November 26, will begin with paragraph 127 and end with paragraph 132, inclusive.

Fourth Year Astronomy.

The following students will compute the latitude and the watch correction from their own observations: Humphrey, J. F. Urquidi, H. C. Mitchell, F. G. Bennet, and J. Hayes. Data may be obtained at the office. Reports of observations will be due on Monday, November 28.

The management of the Musical Association takes pleasure in announcing the appointment of Mr. Phelps Nash Swett as Assistant General Manager.

Tennis.

The final matches in the Fall Tennis Tournament were played on Jarvis Field, in Cambridge. The weather was very cold, and so windy that the playing was not up to the standard. Fanning defeated Lightner in the singles by the score of 6-2, 6-3, 6-4. The doubles were closely contested, Lightner and Greely finally defeating Cullimore and Farrington. The last set was particularly well played and very interesting. The scores in the doubles were 7-5, 6-1, 9-7.

Hockey.

The regular hockey practice will be omitted next Thursday, on account of the suspension of classes. After that there will be practice in the gym. every Thursday night at 8 o'clock, until the rink is completed.

C. H. LOUTREL,
Temp. Captain.

Notices.

The Y. M. C. A. handbooks are ready for distribution and will be given out at the Y. M. C. A. office in Engineering B, Wednesday, 1 to 2 P.M., and Friday, 1 to 2 P.M. of this week.

Found on Field Day near the Field a pair of gold bowed spectacles. Owner can find same at Cage.

I wish to thank the fellow who found the glasses on the night of the parade. Will he please leave his name at the Cage.

COURSES I., II., III., VII., X., XI., XII., XIII.

Students who begin laboratory
work this term will meet for two in-
troductions during the week of
November 28, these lectures to
take the place of the regularly as-
signed laboratory exercise for the
week. For the first exercise pro-
cure "Notes on Nature and Discus-
sion of Measurements," and study
pp. 1 to 9. For the second exer-
cise procure "Notes on Graphical
Methods," and study pp. 1 to 20.
Further directions regarding regis-
tration and procedure in the labora-
tory work will be given in the lec-
tures.

The lectures will be held in Room
23, Walker Building, as follows:

Courses II., III., VII., X., XI.,
XII., XIII., Tuesday, November 29,
from 11 to 12 A.M.; Thursday, De-
cember 1, from 11 to 12 A.M.

Course I., Tuesday, November 29,
from 2 to 3 P.M.; Thursday, Decem-
ber 1, from 2 to 3 P.M.
